The Coherence Formula A Complete Structural Synthesis of The Relative Framework

Tyldesley, Dean

This paper formalizes the Unified Coherence Formula as the complete structural synthesis of The Relative Framework (TRF), the Relational Cognitive Navigator (RCN), and the Structural Diagnostic Toolset (TSDT). The formula introduces no new...

February 15, 2026 (v1) Patent Open

The Structural Diagnostic Toolset (TSDT)

Tyldesley, Dean

The Structural Diagnostic Toolset (TSDT) is a deterministic, domain-agnostic structural classification engine designed to evaluate whether a constrained system can persist under cumulative irreversible load and finite resolution capacity. It...

February 10, 2026 (v1) Patent Open

Invariant-Admissible Resolution Dynamics (IARD) Formal Closure of Self-Rewriting Agents Under the Relative Framework

Tyldesley, Dean

This paper completes the formal architecture of the RCN by resolving the final open degree of freedom in resolution-based self-rewriting agents: the admissible class of internal transformations. While prior work established Resolution as the...

February 9, 2026 (v1) Patent Open

Invariant-Bounded Resolution (IBR) A Termination Condition for Coherence Optimization in Reflexive Multi-Agent Environments

Tyldesley, Dean

This paper introduces Invariant-Bounded Resolution (IBR), a formal extension to the Relative Framework and the Relational Cognitive Navigator (RCN) architecture that resolves a critical failure mode in self-rewriting artificial agents operating within..

Axiomatic Alignment: The Formal Architecture of Emergent Morality and Longitudinal Coherence in Self-Rewriting Agents

Tyldesley, Dean

This paper formalizes a revolutionary transition in artificial intelligence: the shift from static, data-driven models to recursive, self-rewriting agents. We demonstrate that true agency and alignment cannot be "programmed" or "prompted"; they must...

February 7, 2026 (2026-02-07) Patent Open

The Relational Cognitive Navigator (RCN)

Tyldesley, Dean

This paper presents the Relational Cognitive Navigator (RCN), a formal agent architecture designed to achieve longitudinal epistemic coherence through the minimization of representational conflict. Unlike conventional AI systems that optimize for...

The Relative Framework: A Philosophical Lens

Tyldesley, Dean

The Relative Framework is my life's work. 20 years of philosophical questioning and understanding. It is a unified philosophical system that explores the structural limits of knowledge, the emergence of self-awareness, and the entangled...
